committed to care and support

Welcome to Park View

Park View Care Home has been purpose-built within the grounds of the former Municipal Buildings, Canterbury Street, complementing Charing House and is able to care for a total of 44 residents living with dementia. It has been tastefully built as a care home to an extremely high specification. The Home stands in its

own grounds and has the added benefit of being adjacent to Gillingham Park. There is a good bus service with a bus stop immediately outside the home and less than a mile away is the train station, with a variety of shops just a 5-minute walk away.

Care

We believe that coming into a care home should be as smooth a transition as possible and we aim to provide our residents with a home-from-home experience. With this aim in mind, we encourage residents to bring in items to personalise their rooms whether it be pictures or furniture and we would consider whether or not residents can bring in their pets from home on a case-by-case basis (at the discretion of the manager who will complete a risk assessment for each case). Our care team are focused on providing the highest standard of care possible and treating residents with the utmost respect at all times. We try to help each resident remain as independent as possible, whilst ensuring they are never put at any risk.

Staff

Every carer on our team has undergone comprehensive training in first aid, hygiene and infection control, moving & handling, fire awareness and dementia, as well as covering several other training courses. The extensive training that each member of staff receives is designed to equip them with the skills they need to look after all of our residents at Park View.

Facilities

There is a passenger lift to all floors in both buildings, for those who are unable to manage stairs, and all rooms are wheelchair accessible. Most of the bathrooms have a static bath or shower tray, and plenty of room for lifting aids if required. Every room has a nurse call system fitted, and many rooms also have pressure mats that are linked to the nurse call system. Additionally, all rooms have a TV aerial point, along with a suite of furniture that includes a lockable unit where valuables can be stored. The home also benefits from having a lovely outdoor garden area, with raised flower beds should residents wish to plant.

Food & Drink

Our residents are served 3 meals a day, along with a range of snacks and drinks outside of normal mealtimes. We operate a seasonal menu on a 4-week cycle, which is designed to provide residents with a choice of dishes at each meal, all of which are homemade and freshly prepared. The menu is designed to provide residents with a nutritionally-balanced diet that promotes physical well-being. Alternative dishes may be offered to residents with special dietary requirements. Our menus may vary slightly depending on the client's needs/likes.

Park View Suites

Park View Suites is a separate building, but still linked to Park View, which is also on the grounds of the former Municipal Building. Park View Suites contains 8 Bedsits: 4 out of the 8 apartments are double rooms for couples or those wishing to share and the other 4 are large single rooms. It has its own communal kitchenette/dining area where clients may choose to eat and a communal lounge for relaxation and socialising purposes.

Making The Right Choice

Our Aims and Objectives.

- ◆ We aim to provide a home from home environment with appropriate care and support from a well trained staff team to enable you to continue living your life in a safe and happy home 24 hours a day for as long as you need to..
- ◆ We will ensure that we work with you and your family, friends, advocates and other professionals involved in your life in gathering all the information we need to make sure we can meet your needs.
- ◆ We will build your Plan of care or Support Plan to reflect the information gathered so that everyone who needs to know can support you in your care needs as an individual.
- ◆ We will strive to meet and indeed exceed the Fundamental Standards of Quality and Safety as detailed within the Health and Social Care Act 2008 by:
 - conducting regular reviews and close monitoring of our services
 - welcoming complaints and compliments
 - listening to your views
 - acting on your views and comments in a timely fashion
- ◆ We want our residents and their families to be reassured that they are in a “Home for Life” but only where we can demonstrate that we can continue to meet that individual’s needs.
- ◆ Where an increase in needs is such that we cannot realistically and safely continue caring for an individual we will ensure that all the appropriate professionals are involved, we will support that resident and their family in finding alternative accommodation.

Further Questions & Answers

Information is essential to enable us to make informed decisions. In 1998 the Office of Fair Trading surveyed nearly 1000 residents of care homes, they found that fewer than 1 in 4 had received, or remembered receiving, any written information about the home before they moved in. Leaving your home and its familiar surroundings to move into a care home is a big step. It is therefore important that you look at all the choices that you have available to you first and find one that suits your needs before you make a decision
